

How to Disable IE Pop-up Blockers Reporting Overview

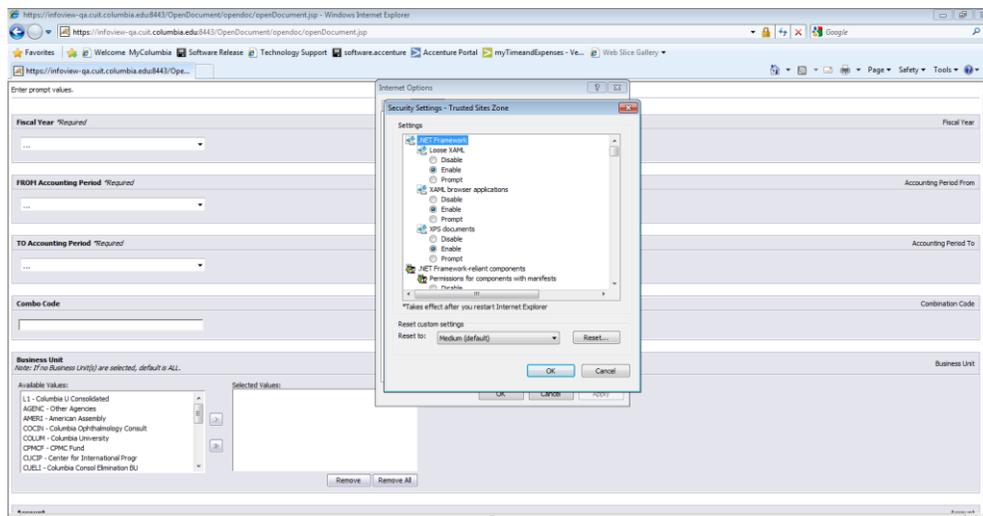

When exporting a report to excel, you may get the Internet Explorer blocker message in which case, you would have to download the file selected and re-run the report.

To avoid getting the internet explorer blocker, follow the steps outlined below prior to filling the report request:

1. Click Tools → Internet Options → Navigate to Security tab.

2. Click on Trusted Sites → once highlighted click on site → in the Add this website to the zone field ensure that the webpage for the reports is there and click Add → once added click close. Then click custom level.

JOB AID

3. Scroll down to ActiveX controls and plug-ins under sub-category automatic prompting for ActiveX controls → set it to Enable.
4. Scroll down to Downloads, under sub-category automatic prompting for file downloads, click Enable
5. Scroll down to Miscellaneous → under sub-category websites in less privileged web content zone can navigate into this zone → set to Enable
6. Click ok. Then ok again and proceed to run the report.

This has to only be done once.
